EDUCATION

Marist College, Poughkeepsie, NY — Bachelor of Science

Expected May 2019

Major: Computer Science

Minor: CyberSecurity, Information Technology

GPA: 3.3/4.0

EXPERIENCE

Zebra Technologies, Hauppauge, NY — Software Intern

SUMMER 2017

Designed and implemented a legacy upgrade of Zebra Retail Solutions' inventory tracking system from a Visual Basic desktop application to a web based system that utilizes both desktop and Android barcode scanners. Integration of the simple, efficient process increased worker productivity.

Learned to work with and present to professional teams of developers, including branch executives. Used the Agile Development process to employ user feedback and discover system requirements.

Town Of Oyster Bay, Massapequa, NY — *Ocean Lifeguard*
Town Of Hempstead, Point Lookout, NY — *Ocean Lifeguard*

JUNE 2013 - SEPTEMBER 2016

Worked cooperatively as a team to perform ocean rescues, first aid, and CPR on patrons in need.

Developed the ability to remain calm and think clearly in a high-pressure, fast-paced environment.

ACTIVITIES

Marist College Student Government — *I.T. Council*

Work collaboratively with peers to design and maintain SGA websites.

Wantagh Techday — *Volunteer Instructor*

Used my knowledge of programming to create curriculum and teach web design to children, grades 5-12.

Marist College Band Executive Board — *Webmaster*

SKILLS

HTML5 · CSS3 · JavaScript · JQuery · PHP · Java · SQL · WordPress · C# · ASP.net · Kendo UI · Web API

PROJECTS

Rerack Apparel – Cofounded, branded and created the website for a startup clothing company.

Fox Trivia – Developed a trivia game that was utilized by Marist College philosophy students as a study tool.

Basketball Registration System – Created a system that gave band members the freedom to choose which basketball games they would prefer to attend, while maintaining band functionality.
